

Athens, 13/11/2023.

Declaration for Scientific Collaboration for Research and Training Purposes

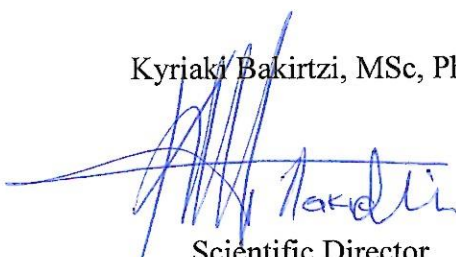

The Experimental, Educational and Research Center of ELPEN Pharmaceuticals Co. Inc. (EERCE), Member of Network of Accredited Clinical Skills Centers in Europe (NASCE), located at 95, Marathonos Avenue, 19009 Pikermi, Attica, Greece

Hereby confirms its collaboration with the University of West Attica (signed and represented by the Rector).

EERCE hereby confirms its intent to continue to provide its service to the University of West Attica in order to support the experimental needs of their funded submitted studies, as supported by the existing business model of EERCE. With the above in mind, both EERCE and the University agree and during their collaboration will abide by the following:

- a) Both parties abide by all internationally recognized and established codes of practice with regard to Bioethics, Research and Training Protocols.
- b) Both parties support the promotion and enhancement of programs on Continuous Education that use simulation as a method of learning.
- c) Both parties support the promotion and enhancement of international collaboration between scientific bodies and between different specialties of healthcare professionals (interdisciplinary collaboration).
- d) Both parties promote and enhance publication of either research findings or novel methods of training (undergraduate, graduate and postgraduate levels) in peer review journals.

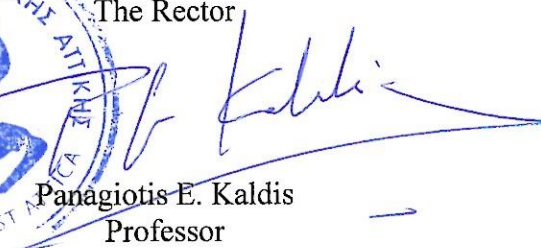

Kyriaki Bakirtzi, MSc, PhD
